

TDI Connect – formerly the Trenton Digital Initiative (TDI) – is an all-volunteer organization that is part of the Mid-Jersey Center for Economic Development, a 501(c)(3) non-profit corporation.

TDI Connect refurbishes computers donated by organizations and distributes them in collaboration with greater Trenton school and community initiatives.

We work in conjunction with the Comcast Internet Essentials program (InternetEssentials.com) so that qualifying people can gain high-speed Internet access for only \$9.95 a month.

At TDI Connect, we think everyone deserves access to today's learning and opportunities available through the internet. We have distributed over 800 computers through our partners and collaborations, and are always seeking computers and monetary donations to expand our mission.

Partnerships and Collaborations

TDI Connect works with organizations and groups to get PCs and internet access into the community. A few of our collaborations include:

- Mercer Street Friends
- Pennrose Properties - Rush Crossing
- Trenton Literacy Movement
- Big Brothers and Big Sisters
- Boys & Girls Club
- Police Explorers
- V.A.S.T.
- Trenton Public Library/Men for Hope
- Gregory School

Computer Donations

TDI Connect accepts donated computers with these specifications:

- 64-bit processor
- Core Duo and above
- 2GB RAM or more; many have 4GB or more
- 160GB Hard drives or larger.
